* * *

Civil service examinations have been ordered to be held during the next few weeks in Missouri for the purpose of filling all fourth class postoffices paying $180 or more per year. Examinations will be held in the Fourth congressional district as follows:

At Rock Port, March 7.

At Maryville and St. Joseph, March 14.

Examinations will also be held in the Third district on March 7 at Bethany, Darlington and Gallatin. The offices to be filled in Nodaway county are Barnard, Clearmont, Conception Junction, Elmo, Graham, Guilford and Parnell. Other postoffices in the Fourth district to be filled are Bolckow, Bigelow, Camden Point, Dearborn, DeKalb, Easton, Farley, Faucett, Fillmore, Forbes, Fortescue, Halls, Iatan, Inza, Nodaway, Phelps City, Rea, Rosendale, Rushville, Tracy and Watson.

Examinations may be taken at any of the points where examinations are held for any of the offices, but the applicant for any office must live within the territory served by the postoffice he desires. Only one examination will be allowed. Application blanks may be secured from the postmaster at any office to be filled, from the postmaster at any point where examinations are to be held or from the civil service commission, Washington, D. C. They should be duly certified and sent to the civil service commission, which will grant permission to the applicant to take the examination.

* * *

The postmaster general has stated that there will be no discrimination allowed in the appointments because of politics. Democrats, however, who desire to succeed Republican postmasters, should take the examination and endeavor to stand such an examination as will place them at the head of the list of eligibles. Appointments made under these examinations will be for unlimited terms.

The senate on Saturday passed the Alaskan railroad bill, providing for the building of a railroad in Alaska, to be financed by the government at a cost not to exceed forty million dollars. The bill will come up in the house this week and a livel ydiscussion is expected. All admit the need of a railroad in Alaska, but members differ as to the proper means to be taken to secure it. Another bill that will be before the house is the bill generally known as the Kenyon red light bill, designed for the suppression of vice in the District of Columbia. Senator Kenyon of Iowa is the author of the bill, and it is modeled after the law in force in Des Moines. It passed the senate some time ago.

SPEAKS HIGHLY OF WILSON.

Dr. B. P. Fullerton, in His Address, Had Praise for the President—Talked of Many Subjects.

The union service of the churches at the First Christian church Sunday night was the largest gathering of the kind ever held in Maryville. The auditorium and galleries were packed with people, who came to hear Rev. Dr. B. P. Fullerton of St. Louis speak.

No one was disappointed in him. Large and commanding in presence, with a world-wide vision of things as they are and a deep heart-sympathy that revealed to his audience the part we as a nation must have in making things as they ought to be, it is not surprising that the audience responded almost to the point of applause several times during his wonderful address. He talked of facts, giving a quick review of the world fields, and dwelt on the sore spots of the world, China and Mexico. The greatest question just now, he believed, is what are we going to do with Mexico? His answer was "lick 'em," but in some way that they will "stay licked." He considers Mexico a veritable hornet's nest, and thinks it will be just as bad a job to attempt to do anything with that country as it is to stir a hornet's nest. But he thinks it should be done, and done soon.

He thinks President Wilson is proving himself a great man as president.

"Of course," he said, "we preachers don't know anything about currency, but I happened to overhear some Wall street bankers say the other day that the country would go to ruin if that currency bill of Wilson's should go through. The bill went through, and now the whole country wants to get in on it. President Wilson's currency reform is going to revolutionize the industrial conditions of the country so that it will be possible for great concerns to flourish all over the land and the earth be allowed to yield its increase.

Dr. Fullerton has for eight years been secretary in the south and southwest for the home and foreign mission board of the Presbyterian church in the United States.

It Will Be Beautiful.

The Fete of Months to be given Saturday afternoon and evening at the "Green Front" building is interesting all Maryville, and there is much excitement and rivalry among the various committees in the decorating of the different booths. January promises to be the most realistic but that airy, fairy, summery June pergola will be a dream, and there is to be music all during the affair.

Mr. and Mrs. Howard Miller left Tuesday evening for Cuba, Kan., on account of the illness of Mrs. Miller's brother, Guy Woodhouse.

Mr. and Mrs. M. V. Baker of Barnard are the guests of their niece, Mrs. D. C. Wilson, and Dr. Wilson, for the missionary conference.

A marriage license was issued Tuesday in St. Joseph to Preston R. Shaver of Barnard and Mrs. Bessie Jones of St. Joseph.

Mrs. Albert Gorton of Barnard was a Maryville visitor Tuesday.

DAY POSTPONED

"GO TO CHURCH" DAY POSTPONED UNTIL ANOTHER SUNDAY.

TO CANVASS THE HOMES

Ministers of City Want to Take a Hand in The Democrat-Forum's Suggestion.

Upon request of the young ministers of our city, The Democrat-Forum will postpone the date for "Go to Church Day" another Sunday, and set it for Sunday, February 8.

The ministers say they are much interested in the suggestion of The Democrat-Forum for a "Go to Church Day" in our city, and they want to have a hand in it, and will enlist their members in a house to house canvass next week.

The missionary conference now in progress that will occupy every moment of their time this week makes it impossible for them to devote any time to the movement at this time.

And now that the ministers of the Protestant churches have expressed so much interest in The Democrat-Forum's suggestion, we most respectfully and cordially ask the Catholic ministers of our city, Rev. Fr. Henry Niemann, Rev. Fr. Anselm and Rev. Fr. Willibrord, to join in the movement for that day.

It is claimed that the churches of Maryville are not large enough to hold the people if all should go to church.

Let's see about it.

Of course, we all know that it will be impossible for everybody to go to church that day, because there is much sickness and there are old people who cannot go. But the great majority can go. There is no excuse, reasonable excuse, for their not going, and The Democrat-Forum for one would like to see, for this one time, at least, how many people could be gathered in our churches for worship at one time.

So remember the date. Sunday, February 8.

May it please every minister and his congregation, every man and his household, every business man and his employes, every man and woman without a home, every boy and girl in our town, "the best on the map," to go to church on that day.

PROGRAM TO-NIGHT

AT THE UNION MISSIONARY CONFERENCE WELL FILLED.

A BANQUET AT 6:30

Given By Ladies of First M. E. Church —Drs. Speer and Dobyns Gave Good Addresses.

Tonight's Program.

Dr. James Cunningham of Africa, Rev. Harrison of Moberly and Dr. Drummond of India will be the speakers this Wednesday night at 8 o'clock at the First M. E. church for the union missionary conference of the Protestant churches.

Subjects: Will the Church Keep Her Eye on the Fields? The Progress of the Kingdom in India. Adoption of the Conference Policy.

The banquet at 6:30 in the church parlors, given by the ladies of the First M. E. church, is for the missionary team and members of the conference, and the men and women officers of the various churches in the city.

The opening session of the union missionary conference began at the First M. E. church Tuesday night. There was an excellent attendance and the speakers were men alive with the missionary spirit, the sort that cannot fail of being imparted to others.

On the platform were Rev. Harkness, who presided, Rev. James Cunningham of Africa, Rev. Dobyns of St. Joseph, Rev. Harrison of Moberly, Dr. Drummond of India and Dr. Speer of Olathe, Kan.

When Dr. Speer, the first speaker, began he said we all knew what conditions existed in the lands of Africa and India, but he did not know just how to characterize the conditions at St. Joseph, Moberly and Olathe. His was an eloquent plea for a union of effort among all the churches, a consecration of every power, a realization of the importance of the place the church holds in every community, how much we are able to do and are willing to do. He brought things close to hand and no one had a chance to dodge responsibility.

Before Dr. Speer gave his address Miss Myrtle Sheldon sang a solo, and after his address and preceding that of Dr. Dobyns, Miss Marie Jones gave a number.

"I believe it is perfectly possible for all the nations of the world to hear the Gospel of Christ in this generation. All that is in the way of this accomplishment in even a shorter period of time is a clearer apprehension on the part of all Americans who profess to be followers of Christ as to what is their privilege in the matter of spreading the Gospel. We have no other justification for living than that we are here for the purpose of carrying out the will of God. We are not saved for any other purpose. There is not a solitary justification for living any other life than that of service. It is a privilege to serve and the best business men of the country are waking up to the fact, and our colleges and universities are filled with young men and young women who are preparing themselves for service and are asking for the hardest tasks that can be given them. Nineteen hundred years have gone since Christ gave the last command to carry the Gospel to the uttermost parts of the earth, and still we have not reached an adequate giving point. But it is coming. Men are giving by thousands and millions of dollars, and when the entire membership of all the Protestant churches are aroused to their privilege in the matter in the giving of pennies, where any larger sum is impossible, then the Kingdom of our Lord and Saviour will soon, very soon, reach the uttermost bounds of the earth."

These are some of the things said by Dr. William Ray Dobyns of St. Joseph, a splendid speaker and Presbyterian preacher. Every word he said said was permeated with the spirit of love of service toward men to enlist them in the work of spreading the Gospel.

Dr. Dobyns believes everyone should have a hobby to ride, but it must be a thoroughbred. He knows some people think hobbyists are crazy, and they are if their hobby does no one good. But if it is a thoroughbred it is bound to be a blessing. He has three hobbies: Bible study, personal work and foreign missions.

"I have observed," he said, "that the man who has a keen interest in the foreign mission field and who has vision of the uttermost parts of the earth, contributes to its support and the alley at the back of his home premises is the cleanest one in town."

"But we must make franker acknowledgment of our ability." Then followed a review of the riches of our country and a vision of undeveloped resources that showed a familiarity with business concerns and business possibilities that any buisness man might envy. Preachers are not supposed to know much about business, but they do. He declared that 80 per cent of church talent and ability is going to waste, for only 20 per cent of its men and women are at work. Think of a business concern that would tolerate 80 per cent of its employes laying down on their job. We must give the people of the churches work to do, and they must get the vision of their work, or the 20 per cent will have a hard pull.

The conference met at 10 o'clock and the discussion was taken up of "Missionary Instruction in the Local Church," and methods for an "every member canvass.' Messrs. Harrison, Dobyns and Speer were the speakers. It was a great session.

At 12 o'clock the missionary team was the guest of the Commercial club at noon luncheon. It was a get-acquainted affair and everybody had a good time.

LECTURE THURSDAY NIGHT.

Dr. Woods Hutchinson to Give the Fifth Number of Lecture Course That Evening.

Dr. Woods Hutchinson, physician, teacher and writer, who is conducting a world-wide clinic, will give the fifth number of the lyceum lecture course on Thursday evening at the First M. E. church. Dr. Hutchinson is from New York and is one of the most prominent physicians before the American public today.

Dr. Hutchinson is popular and causing wide comment because he has a message. As stated by one paper, he is conducting a world-wide clinic and school of medicine for the sick, the near-sick and the well. Medicine is no longer a mystery and the doctor a mere drug giver. The new doctor is willing to "talk right out in meetin'" because he has something of value to tell. Dr. Woods Hutchinson is a pioneer among the new doctors. The health of the people is in their own hands; the doctor may advise but the community must cure itself.

Dr. Hutchinson believes that no permanent cure of any disease can be made by drugs, but only by food, fresh air, exercise and cleanliness. The health of a people is literally "it's own funeral." A man may not practice all he knows, but what he does not know he certainly cannot practice. Ignorance and dirt are the most expensive luxuries in the world.

Dr. Hutchinson is interested in educational problems, in social economics, in politics, regarding them all as branches of medicine. For years he has been a persistent fighter against the white plague, and is an authority on the subject of tuberculosis. He has made a special study of and is prepared to speak on the following subjects. School hygiene, child study, tuberculosis, housing, food, water supply drainage, garbage disposal, eugenics and criminology.

JAMES G. SHAW IS A FORGETTER

Cannot Remember to Whom He Gave Money.

New York, Jan. 28.—James G. Shaw, who is alleged to have been the go-between in the alleged exaction of a political contribution of $41,000 from Patterson & Co. of Pittsburgh as the price of obtaining them a contract for the construction of a section of the Catskill aqueduct, again baffled the efforts of District Attorney Whitman to get him to refresh his recollection before the grand jury.

Shaw in previous testimony admitted that he received a package of $41,000 in bills which other witnesses have testified were intended for James E. Gaffney, political associate of Charles F. Murphy, but swore that he could not remember to whom he gave the money. His testimony is needed as the connecting link in the case before the grand jury can take action.

Consolidated Schools.

To the Editor:—Some states have very liberal laws in regard to the consolidation of school districts, even going so far as to allow the organizers to take in just such territory as would be suitable to them. The organizers generally consist of one slick tongued fellow in a community who gets it into his head that he will consolidate the adjoining territory and build a school house of large dimensions close to his own door. He generally has two or more subordinates, who work under his dictates. To accomplish this they generally circulate a petition among the voters of the suitable territory until they get the required number of signers as exacted by the state law; they then present their petition to the county commissioner who is in sympathy with them, and who will call an election forthwith. Consolidated schools are very expensive but of course the organizers do not wish the voter to consider expenses, as they are working in the behalf of higher education. Consolidated schools can only be organized in a community where the craze for higher education is rampant and where expenses are not considered until taxpaying time. Occasionally in some communities the organizers meet with opposition on the part of the more thoughtful man who has not become properly enthused and who prefers to figure on expenses. When this opposition becomes so great that there is danger of it breaking into the rank of the already enthused voters who are in the majority, the organizers call on some polished gentleman whose most valuable assets are his slick tongue and ability to explain things to the advantage of his employers. This man is expected to paint a worded picture on the glories of education, he can make the roughest path look as smooth as polished marble provided, the imagination of his hearers is at a high pitch. This lecture is called shortly before the election in order to keep the enthused voters from falling from the ranks of the organization. After the election if they get the required number of votes, they then proceed to vote on bonds to raise the necessary funds to erect the school building. Sometimes the voters get their eye-teeth cut at this stage of the game and kick out of the harness, but if they listen to the organizer who will tell them they must be loyal to the cause of higher education, and by making some very fair looking promises they manage to hold them in line until after the bonds are issued. Of course the promoters of this enterprise promise to transport the children to and from school on time regardless of snow storm or mud, provided, when the snow is drifting, that every able bodied man in the community stays up the night before and uses a shovel in order to keep the track clear. The children are transported in wagons over specified routes and these wagons have not scheduled time unless the country in which they are used have macadamized roads, otherwise their time varies according to weather and road conditions. This is overcome by the children getting ready real early in the morning and being on the lookout for said wagon. Children living some distance from the route shall walk there, too, at various times in the morning, according to the weather and road conditions. If they miss the wagon they can return home. Consolidated schools are a haven of rest for professors whose education is not up to the standard. The average cost of an education in consolidated school districts is higher than a college education. The business of consolidated districts is generally carried on by a few men who assume the ownership. A consolidated district soon becomes divided against itself and is therefore a hotbed of contention. The patrons of consolidated schools soon find out that they have been handed something of the species of a gold brick, only under a different name, and their longing for their little rural school houses becomes intense. But alas, they are gone; they have traded them for something they know very little about. They can only blame themselves. They did not do their own thinking. They were carried into consolidation by slick tongues and polished arguments, and what have they left? Nothing, only bitter regret to soothe their feelings.

They Were Showered After All.

Mr. and Mrs. Bruce Montgomery, who were married Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. Eugene Ogden, thought to make a quiet exit on their honeymoon and be well on their way by the time the evening paper came out with the news of their marriage. They were at the train just in time, but they had to sit in the train an hour before it started. A freight train was off the track at Barnard and the wrecker went through about half an hour before the Burlington passenger came in, and it was an hour before the wrecking train could accomplish its work. This enabled a few friends of the bride and groom to gather at the train and shower them with rice and see them off properly.

Gave a Miscellaneous Shower.

Mr. and Mrs. Howard Garrett, the newlyweds of Clearmont, were given a surprise Monday afternoon while visiting at Skidmore. Mrs. Garrett was spending the day with her parents, Mr. and Mrs. Howden, and in the afternoon was invited by Miss Mary Ashbrook to accompany her in making a call at the home of Dr. and Mrs. J. E. Pierpoint, who are just settled in their nice, new modern residence. Mrs. Garrett accepted the invitation, and after Mrs. Pierpoint had shown her about the downstairs of her home, the bride of a fortnight began sketching the plans for her own home at Clearmont, and while thus interestedly engaged with her hostess and friend, a large company of her friends who had been secreted upstairs, came quietly down and had almost filled the rooms before she whom they had gathered to honor knew of their presence. Mrs. Garrett was given a miscellaneous shower of most beautiful and useful things, and the arrival of her husband on the 4 o'clock train to accompany her home, included him in the affair. A delightful lunch of sandwiches, salad, grape juice, cake and ice cream were served. The guests were Mr. and Mrs. Howard Garrett, Mr. and Mrs. W. M. Howden, Mrs. Sylvester Bosley, Mrs. Milton Sewell, Mrs. W. J. Skidmore, Mrs. D. R. Baker, Mrs. Fred Williams, Mrs. George Porter, Mrs. G. L. Owens, Mrs. H. W. Montgomery, Mrs. W. H. Hoblitzell, Mrs. L. D. Jordan, Mrs. E. T. Duval, Mrs. Gertie Hickman, Mrs. Ben French, Mrs. Bitha Goslee, Mrs. J. F. Patton, Mrs. George Patterson, Mrs. Mervin Gray, Mrs. Ray Strickler, Mrs. Frank Albright, Mrs. Laura Hickman, Mrs. W. S. Linville, Mrs. Jep Collins, Mrs. Emma Monk, Mrs. J. E. PRESIDENT OF HAITI FLEES

Leaves Port au Prince After Fighting Begins in City.

REVOLT GAINS GREAT HEADWAY

Oreste Hastens With Wife Aboard German Cruiser—United States Battleship South Carolina Heads for Scene. Bluejackets Landed at Capital.

Port au Prince, Haiti, Jan. 28.—President Michel Oreste fled from the capital and took refuge aboard the German cruiser Vineta. He was accompanied by his wife.

Fighting began in the city at 1 p. m. An hour later the president left the palace under escort and was conveyed in a launch to the warship lying in the harbor. Almost immediately detachments of bluejackets were landed from the United States armored cruiser Montana and the Vineta.

Firing continues and it was evident that the revolutionary movement, which began in the north and spread to some of the southern towns, had gained sufficient strength in the capital to threaten not only the power but the life of President Oreste.

Starts for Port au Prince.

Washington, Jan. 28.—Wireless news that President Oreste of Haiti had fled from his "revolution-torn capital, leaving no government," caused Rear Admiral Badger, at Guantanamo, Cuba, to start the battleship South Carolina on a 500-miles run at top speed for Port au Prince.

Captain Robert L. Russell, commanding the South Carolina, has orders to join the armored cruiser Montana, which already has landed bluejackets, at the Haitien capital and to take such steps as may be necessary to guard the lives and property of Americans and other foreigners. The battleship should reach the scene this evening.

GOETHALS IS GOVERNOR

President Creates Permanent Civil Government for Canal Zone.

Washington, Jan. 28.—Organization of a permanent government for the Panama canal zone to supercede the isthmian canal commission April 1 was authorized by President Wilson with the announcement that the nomination of Colonel George W. Goethals to be the first governor of the Panama canal would be sent to the senate in a few days.

Colonel Goethals' idea of a "one man" government is carried out in the executive order. The authority of the governor is to be supreme under the secretary of war.

Official notification of his selection was cabled to Mr. Goethals at Panama. Secretary Garrison said he was confident there would be no question about acceptance.

Secretary Garrison announced that it was proposed to resolve the members of the commission, with the exception of Colonel Goethals, into a new commission to arrange for and conduct the ceremonies incident to the opening of the canal.

STEAMSHIP RATE WAR

German Companies Prepare for Fight to a Finish.

London, Jan. 28.—Representatives in Great Britain of the Hamburg-American steamship line declared that the rate war opened between the German companies is to be a fight to a finish. No quarter will be either shown or expected between the Hamburg-American and the North German Lloyd.

The first named company is preparing for war on all the traffic heretofore conceded to its rivals and will immediately resume its passenger service to the east and the far east, hitherto almost monopolized by the North German Lloyd. It also will invade the South American field.

It was officially announced that the reduced steerage rates published by the British steamship lines between the United States and continental ports will become effective on Feb. 1. The reductions amount to $4.80 for eastbound passengers and $2.40 for westbound.

DIAZ BACK OF PLOT

Two of His Followers Arrested at Vera Cruz.

Mexico City, Jan. 28.—Two natives of the state of Oaxaca, Guillermo Mexueiro and Fidencio Hernandez, have been arrested on the charge of being implicated in the plot to overthrow the federal government. Mexueiro and Hernandez were identified with the political fortunes of General Felix Diaz. They are the most prominent of those so far arrested in connection with the alleged plot.

The arrest of Hernandez and Mexueiro tends to give strength to the rumor that General Diaz has a new revolution under way. Both were arrested in Vera Cruz, where they were with General Diaz when Diaz fled the country in November.

SEE IF THE CHILD'S TONGUE IS COATED

Mother! Don't Hesitate! If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

AT FOURTH AND MAIN.

St. Joseph Market Report.

South St. Joseph, Mo., Jan. 27.—A good healthy tone has been evident in the cattle trade here the past week. The market for fat steers closed strong to 15c higher last week and under a light run prices were boosted another dime Monday. Today prices ruled steady to 10c lower, following a break on all but choice cattle at Chicago the opening day of the week. Best steers offered thus far this week sold at $8.75@8.85; bulk of the fair to good dressed beef grades going at $8.25@8.60. More well-finished steers are needed here to meet existing demand. Cows and heifers are 10@25c higher than a week ago. Choice cows sold today at $7.25@7.50. Stockers and feeders are 10@20c higher than a week ago and demand broad for all classes.

Hogs sold 10c higher here yesterday and about that much lower today. Prices are very little changed compared with a week ago. Top, $8.45; bulk of sales, $8.10@8.40. The market shows healthy color, and while buyers occasionally force a break in prices they have been unable to effectively check the upward trend.

Sheep and lamb market is an irregular affair these days—prices advancing and receding according to the size of receipts. Compared with a week ago lambs show a 15@25c decline, while sheep are firm if not a point higher than at that time. Prime lambs are quotable up to $8, yearlings $6.90, and ewes $5.50—St. Joseph Stock Journal.

DISCUSS FOREIGN RELATIONS

Wilson and Senators Confer on Things International.

Washington, Jan. 27.—President Wilson conferred for nearly three hours with the senate committee on foreign relations.

The president explained to correspondents that he had urged the ratification of the general arbitration treaties proposed for renewal.

The president also outlined to the committee his attitude on the Panama canal tolls question. Asked what it was, he said he thought it was generally understood, but declined to discuss his views at this time.

Chinese Crew Have Battle.

New York, Jan. 27.—A disagreement between Republicans and monarchists among the thirty-five Chinese seamen on the British freighter Madawaska caused frequent bloodshed during the voyage from England and brought about the detention of sixteen of the Chinese at Ellis Island for mutiny. The sailors under arrest are the republicans. They will be sent back to England for trial. The monarchists stayed aboard the Madawaska and sailed with it for Brazil.

Woman and 3 Girls Burned to Death.

Montreal, Jan. 27.—Mrs. Napoleon Rodin and three little girls, one a neighbor's daughter, were burned to death in the Rodin home at Notre Dame Des Rosare, Quebec. The dress of one of the Rodin children caught fire at the stove. The child, panic-stricken, ignited the others, and the mother sacrificed her life in trying to save them.

"My little daughter, Louise, age 9 years, has always been delicate, anaemic, had no appetite and seemed listless, and we could not seem to find anything that would help her, until we were advised to give her Vinol. She started taking it six weeks ago and inside of two weeks she showed a marked improvement both in appetite, vim and looks. Being so well pleased with the results, I continued giving it to her, and words fail to express my gratitude, and faith in Vinol both as a blood maker and body builder. As my child was an anaemic for so long makes the reason all the stronger for me to recommend it to others in similar condition." Geo. E. Munro, Brooklyn, N. Y.

Vinol restores health and strength in conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, enriches the blood and strengthens every organ of the body.

Every bottle of Vinol is guaranteed to give satisfaction or money refunded. Orear-Henry Drug Co., Maryville, Mo. —Advertisement.

CLARK WARNS FELLOW JURISTS

North Carolina Chief Justice Raps "Judicial Anarchy."

CONTROL IN HANDS OF THE FEW

Judge Declares That Power of Government, Both Federal and State, Is at Feet of Clique Composed of Lawyers of Country.

New York, Jan. 28.—Chief Justice Walter Clark of the North Carolina supreme court, in an address here, declared that all the power of the government, both federal and state, lies at the feet of a "judicial oligarchy" composed of the lawyers of the United States and warned his fellow jurists throughout the country to take heed lest their power prove their own undoing.

Justice Clark's theme was "Government by Judges." In part he said:

"In this country, as in all countries, the control of the government is in the hands of the few. We have learned that the form of government amounts to little. The real question is 'Where does the control of the government reside.'

"The overwhelming preponderance of the judiciary was unexpectedly created in 1803 by a decision of the supreme court of the United States without a line in the constitution to authorize, when that body assumed the right to veto any act of congress they chose to hold unconstitutional. This doctrine was promptly seized upon as a boon by the special interests and by all who believed at heart in the government of the many for the benefit of the few. It practically has made the courts the dominant power in every state in the union. Whenever any progressive statute has not been in accord with the economic views entertained by the courts, they have generally exercised their power to declare such statute unconstitutional, because it was not 'Due process of law.'"

ST. LOUIS MURDER MYSTERY

Girl Is Killed and Her Body Dismembered by Negro.

St. Louis, Jan. 28.—St. Louis detectives are confronted with a murder mystery, which, in point of brutality, may equal the killing of Anna Aumuller in New York. It concerns the disposition of the dismembered body of a white girl, which a negro is alleged to have attempted to burn.

The mystery was partially brought to light in a story told to Chief of Detectives Allender by Charles Anderson, a negro, under indictment for murder in connection with the killing of another negro.

Anderson swore that his father-in-law, Reece McAllister, came to the laundry where Anderson was employed as night watchman and offered $50 for permission to burn the body of the girl in the furnace. Anderson says he saw the severed body, but refused his father-in-law the request. McAllister, who is held as an accessory to the murder with which Anderson is charged, denies the accusation.

The sons, Edward and Charles, Jr., both switchmen, were killed in switching accidents within the last two years. Otto, a third, is a cripple as a result of being struck by a switch engine a year ago.

Fitzsimmons Loses His Appeal.

New York, Jan. 28.—The supreme court denied the application of Robert Fitzsimmons, one-time heavyweight ring champion of the world, for an injunction restraining the New York Athletic commission from refusing to sanction his participation in boxing exhibitions in this state. The commission held that Fitzsimmons, who is fifty-one years of age, is too old to enter the ring again.

Attempt to Wreck Train.

St. Louis, Jan. 28.—An attempt was made to wreck the southbound fast mail on the St. Louis, Iron Mountain and Southern railway. Ties were piled on the track near Carondolet park, which is in the extreme southern part of St. Louis. As the train swung around the curve the headlight showed the ties on the track and the engineer stopped the train within a few feet of the obstruction.

MONTANA MARRIAGES INVALID BY HUNDREDS

Result of Decision Handed Down by Judge Smith.

Helena, Mont., Jan. 28.—Hundreds of marriages in Montana are rendered invalid by a decision handed down by Judge J. Miller Smith in deciding the application of Henry C. Cotter of Spokane for appointment as special administrator of the estate of Mamie Cruse Cotter, his supposed wife.

Judge Smith held that the marriage of Miss Cruse to Cotter ten months after she had divorced Alva O'Brien of New York was invalid, under the Montana law prohibiting marriages of a properly divorced person within two years, and a person divorced for cause within three years.

An attempt was made to repeal this law in 1895, but it failed because of a defect in the title of the repealing act. Since that time it has become so generally disregarded that few persons were aware that it was upon the statutes.

Given Suspended Sentence for Causing New Haven Wreck.

New Haven, Conn., Jan. 28.—Charles H. Murray, flagman of the Bar Harbor express, which was wrecked by the White Mountain express on the New Haven railroad at North Haven on Sept. 2, pleaded guilty to manslaughter and sentenced to one year in the county jail. The sentence was suspended and Murray put in care of the probation officer. The wreck cost twenty-one lives.

In pronouncing sentence the court said that Murray's negligence was very remote. The real cause was the system under which the flagman worked. The court said that the interstate commerce commission found several contributory causes for the wreck and Murray's negligence was the least of these.
